technical skills

Languages

Programming JavaScript, C++, Python.

My github: <https://github.com/siggins>

My website: jacobsiggins.co.uk

Some links to pages I've made which demonstrate JS web-app functionality:

'Ambience web-app' <https://siggines.github.io/ambience/index.html>

Weather API https://siggines.github.io/weather_app/index.html

Simple text-effect https://siggines.github.io/text_effect/index.html

I am familiar with Node.js, and a bit of React.

In C++ I have for example made games with the SFML framework.

Some of the stuff I have done in C++ is available to see on my Github page.

Markup HTML, CSS, TeX.

Scripting Python, Shell.

| Literature: C | Language: C | Physics: C |

A-Level

| | |
|--------------------------|---|
| Computer Science: | B |
| Government and politics: | D |
| Maths: | C |

about me

Since finishing college I have been doing landscaping, and in some of my free time have been developing my programming knowledge, including learning a little bit of C++ and Java, and creating websites and web-applications with JS.

My ambition is to have a career in software development, and at the moment I am open to both the front-end and back-end pathways within the field.

I am currently searching for an apprenticeship because this is a good way to start a career in the field, and I'm eager for the opportunity to learn.
