technical skills

Languages

Programming JavaScript, C++, Java.

My github: github.com/siggines

My website: <http://jacobsiggins.co.uk>

Some links to pages I've made which demonstrate Java Script web-app functionality:

'Ambience web-app'

'Weather app', using an API

'Drag & drop'

I am familiar with Node.js, and a bit of React.

In C++ I have for example made 2D games with the SFML framework, such as my own version of 'Doodle Jump'. If you would like to view this, you can click the link at the top of this section to my Github page, where this and a few of the other projects I have worked on in C++ and Java are available to see.

Markup HTML, CSS, T_EX.

'Tex' is a typographical markup language used to create text documents, i.e: this cv!

Here is an example demonstration of CSS functionality:

'Simple text-effect'

Scripting Python, Shell.

education

GCSE

Geography: C	Philosophy: B	History: B
Chemistry: C	Maths: B	Biology: B
Literature: C	Language: C	Physics: C

A-Level

Computer Science:	B
Government and politics:	D
Maths:	C

about me

Since finishing college I have been doing landscaping, and in some of my free time have been developing my programming knowledge, including learning a little bit of C++ and Java, and creating websites and web-applications with JS.

My ambition is to have a career in software development, and at the moment I am open to both the front-end and back-end pathways within the

field.

I am currently searching for an apprenticeship because this is a good way to start a career in the field, and I'm eager for the opportunity to learn.
